Welcome to **TOWNSEND** TENNESSEE

Somewhere along the Tuckaleechee Cove, you will find Townsend, Tennessee or "The Peaceful Side of the Smokies". Rich in history, and archaeologically dating back to 2000 B.C., this "peaceful valley" as the Cherokee named it long ago, is the perfect place to come for uninterrupted relaxation. Townsend offers visitors boundless family-fun, excursions and activities, inside or outside.

THE LITTLE RIVER
Winding throughout Townsend and along Hwy 321 is the Little River. The river flows out of the national park, through Townsend, and eventually to Ft. Loudon Lake. The Little River is clean and cool along much of its length and flows in a wide variety of both hot and cold water. The Little River is the perfect destination for fishing, relaxing, tubing, picnics, family time, water sports and wildlife watching.

THE TOWNSEND RAILROAD MUSEUM
At the Little River Railroad & Lumber Company museum visitors can see the original 1917 locomotive used for Townsend logging operations. The depot at Watland was moved to Townsend and maintained in its display from the days of the railroad and lumber operations. The Museum seeks to preserve the history of life on the Little River.

TOWNSEND BIKE TRAIL
Locals and visitors alike use the scenic Townsend Bike Trail for walking, running and especially bicycling. The paved trail follows gentle grades and scenic vistas in 14 minutes through the entire 5-mile length of central Townsend. The trail loop parallels both sides of Hwy US 321 and is lined by forests in strategic locations while providing convenient access to restaurants, shops, inns and community landmarks. The bike trail is the perfect way to explore Townsend.

THE GSM HERITAGE CENTER
Located near the entrance to the Great Smoky Mountains National Park, the GSM Heritage Center features a variety of galleries to celebrate the history and culture of the Smoky Mountains National Park, Townsend, and the Great Smoky Mountains National Park. The Station America Village Car Gallery, and Appalachian Mountain State Gallery, and Appalachian Mountain State Gallery present exhibitions and programs for educational and cultural enrichment for all ages! Visit gsmheritagecenter.org to learn more.

CAVES COVE AND THE NATIONAL PARK
The 15 mile Cades Cove Loop Road is world renowned. This gem of the Great Smoky Mountains National Park is a premier destination for Townsend visitors. Whether you prefer four wheelers or trails, this scenic drive boasts numerous historical buildings, scenic vistas, and breathtaking 360-degree views of the ancient Smokies in any season!

TUCKALEECHIE CAVERNS
Tuckaleechee Caverns is known as the "Greatest Site Under the Smokies". A mile long guided tour includes the "Big Room" which is over 400 ft long, 300 ft across, and 150 ft deep. It features 24 foot tall stalagmites, and a 210 ft high double waterfall called Silver Falls. The water is so pure that guests are encouraged to take a drink. The caverns are also home to the most sensitive Sonoran Stolon (SN CARIN) which is monitored 24/7 worldwide.
